

Embroidery Stitch Count Estimator

The Grid Method

Use the rules below, and a grid similar to the one above, to estimate your design's stitch count.

1 Large solid square 25mm x 25mm of embroidery equals approximately 2 000 stitches.

1 Small solid square 5mm x 5mm of embroidery equals approximately 125 stitches.

No letter should be smaller than 5mm, each letter 6mm in height is equal to about 100 stitches.

Drop shadows in your logo will translate to 200 extra stitches per 25mm.

Straight lines under logos typically require 200 extra stitches per 25mm.
